SED Number: 12-03-01-04-0-001-014 – Downsville K-12 School

The Downsville Central School District anticipates conducting a construction project commencing on or about July 1, 2009. This project will be conducted at Downsville K-12 School located on 14784 State Highway 30, Downsville, NY. The project will consist of the following:

Removal and replace septic system. Removal and replace playground equipment. Removal and replace gymnasium flooring. Remove existing gymnasium bleachers and replace with ADA/code compliant bleachers. Remove locker room configuration including lockers, showers and toilet rooms and replace with ADA compliant locker rooms, showers and toilet rooms. Restore existing copper roof turret to prevent water intrusion into building.

Pursuant to Education Commissioner's Regulation 155.5(d), the Downsville Central School District will provide a safe school environment throughout this project, including an update of the school emergency plan to reflect any temporary exits or procedures needed as a result of the construction work at the school facilities. Fire drills will be held to familiarize students and staff with any temporary exits. The construction area will be separated from occupied areas of the building, all construction workers will be required to wear photo identification badges, and noise levels will be kept to a minimum while the building is occupied. All applicable federal and state rules and regulations will be strictly adhered to throughout the length of this project.

Specific questions or concerns about this project may be directed to Ron Henderson, Superintendent of Building & Grounds, at 363-2121.

We, the Downsville Central School Community, will be a high achieving, evolving educational environment responsible for building a foundation of trust, fairness, and consistency by working collaboratively to inspire and nurture each individual's passion, voice, and character for life-long success.
